

Paper Hedgehog

You Will Need:

- * White paper
- * Black Paper cut into strips
- * A piece of A4 Card
- * Glue
- * Pens for drawing detail
- * Leaves-paper or real!

1. Draw and cut out a hedgehog shape from the white paper

2. Stick it onto the A4 card

3. Bend the black strips over gluing both ends together on top of the hedgehog template, making sure you don't squash them flat. Start at the top of the hedgehog and work across in lines

Paper Hedgehog

This is what your hedgehog will look like once you have completely covered the template (not his face) with the black strips.

4. Use the felt tips to add a nose, eyes and mouth.

5. Add the coloured leaves around the bottom of your hedgehog and falling through the sky.

Your finished autumn hedgehog!
